

OCEANO 6

OCEANO 6 ALUMINIUM 60° 4000K HONEYCOMB-15M

Cod: CEA13FCL100P00

IdroSkud® protection system

- polarity reversal protection
- voltage spikes protection

Protection class III

Designed to be supplied from a separated extra-low voltage (SELV) power supply

Protected against powerful power jets, 100 liters per minute

date: 22/11/2024

IP 68

Protected continous against immersion up to 3 meters

IK 07

Protected against impact of 2 J

High temperatures

Design to withstand temperatures up to +50° C

C5 - Very high

corrosion resistance level ISO 9223

Mizar warranty

5 years warranty

Technical description

Floodlight suitable for outdoor environments (IP66/IP68) with operating temperature range: -20°C / +50°C. To offer maximum versatility of application, the body can be made of aluminum or steel; the bracket, made of steel for both models, allows the fixture's tilt to be adjusted. The light source consists of a single 2W power Led chip powered at 24V constant voltage with integrated driver. The luminous flux makes it ideal for illuminating architectural details, garden plants or water features, thanks to the different emission angles. The source is set back for greater visual comfort. Color rendering index CRI > 90. Oceano is equipped with IdroSkud® system to protect electronic components from voltage spikes, polarity reversal and water infiltration. Optional for anti-glare (honeycomb) and accessory for installation in the ground (stake) are provided.
