Technical description

Inground luminaire, walk-over, suitable for outdoor and underwater environments up to 10 m (IP66/IP68), with operating temperature range: -20°C / +50°C. The light source consists of a single 3W power Led chip powered at 24V constant voltage with integrated driver. The various angles of grazing emission make it ideal for marking pedestrian paths or illuminating. The source is set back for greater visual comfort. Color rendering index CRI > 90. Oceano is equipped with IdroSkud® system to protect electronic components from voltage spikes, polarity reversal and water infiltration. Installation accessories (draining and waterproof outercase) are provided.
